

# PRINCIPALITY OF SEALAND

Prime Minister

Government Decision 05-01-2004

- In view of the necessity to prepare for a humanity that is importuned by the negative effects of explosions technology as quickly as possible the way for implosion technology (natural technology),
- considering the many political, economic and spiritual restraints that are still piled up on this necessary path,
- conscious of the fact that the present global crisis is irresponsibly aggravated if not caused outright by the systematic suppression of long-existing discoveries and developments in the area of implosion technology,
- in serious consideration of the risks involved for what remains of the stability in the present economic and political situation,
- after a respite of one year within which the Government of the main victorious power of the Second World War – the United States of America – was given the opportunity to voice any objections it may have had against our intent to publish and disseminate a first part of this "VRIL Technology" in the form of the "Sealand Generator" (see the letter by the Principality of Sealand of May 5, 2003, to the Ambassador of the U.S. of A. in Germany)

the following is passed on May, 2004:

## DECISION

concerning the international publication  
of the technology of the "Sealand Generator"

The Government of the Principality of Sealand authorises the state-owned Sealand Trade Corporation to call on the governments of all states of the world seriously to consider and research the opportunities that will be opened for their own scientific and economic interests by the selfless and gratuitous publication of a section of the "Vril Implosion Technology" in the form of the "Sealand Generator – Kosmische Dynamik".

The Government of the Principality of Sealand authorises the Sealand Trade Corporation (Niederlassung Deutschland, Postfach 1128, D-14959 Trebbin OT Löwendorf, Firmensitz: 33378 Rheda-Wiedenbrück, Postfach 2366, USt-ID-Nr.: DE 164906133), to answer all requests, to function as contractor for the test drive of the "Sealand Generator", to make available the requested test devices and to keep the security deposits safe.

The security deposit will be 10,000 € per generator. The duration of specific test phases and further issues can be agreed individually.

The Sealand Trade Corporation offers to make available to those countries whose governments recognise in this something of value to the interests of their countries and their people – or at least to not want to pass up without further checking these manifold opportunities of a renewal – a contractually controlled exchange of the basic scientific structures, the technology and the different applications of the energetic principle fundamental to the "Sealand Generator".

Decided and proclaimed: Sealand, May 2004

## Vertrieb des Sealand Generators (Kosmische Energie)

Exzellenz,  
sehr geehrter Herr Botschafter,

die staatseigene Firma Sealand Trade Corporation, vertreten durch den Unterzeichner, beabsichtigt, in Kürze an die Mitglieder des Sealand Businessclubs diesen Generator im Automobilbereich zur Verbesserung der gesamten Motorleistung und Reduzierung des Kraftstoffverbrauchs weltweit zu vertreiben.

Bei dieser Technik handelt es sich um den Ausstieg aus der Explosionsenergiegewinnung. Mit dem Generator können symmetrische Gravitationswellen beliebiger Frequenz erzeugt werden. Mit dieser Technik ist es möglich, Energie in atomare und molekulare Strukturen geeignete Stoffe einzubringen und zu speichern. Da Ihrem Land die Konsequenz dieser Technik bekannt sein dürfte, bitte ich um Hinweise, ob die Vereinigten Staaten von Amerika eventuelle Einwände gegen unsere Absicht erheben möchten.

Sollten wir bis zum 2. Juni 2003 nichts von Ihnen hören, gehen wir davon aus, dass Ihr Land gegen unser Vorhaben keine Bedenken erhebt.

Im übrigen verweise ich auf unsere Homepage unter: [www.principality-of-sealand.org](http://www.principality-of-sealand.org).

Mit vorzüglicher Hochachtung

Johannes W. F. Seiger  
(Prime Minister)

May 5, 2003

*Distribution of the Sealand Generator (Cosmic Energy)*

Your Excellency

Dear Mr Ambassador

the state-owned company Sealand Trade Corporation, represented by the undersigned, has the intention to distribute this generator world-wide – for use in automotive applications to improve engine performance and to reduce fuel consumption – among the members of the Sealand Business Club.

This technology represents the phasing out of gaining energy by explosion. The generator is able to create symmetrical gravitational waves of any desired frequency. This technology allows to bring energy into atomic or molecular structures of appropriate materials and to store it there. Since in your country the consequences of this should be well-known, we would like to inquire whether the United States have any objections against our intention.

Should we not hear from you by June 2, 2003, we will assume that your country has no compunctions concerning our plans.

I further would like to draw your attention to our internet presentation under [www.principality-of-sealand.org](http://www.principality-of-sealand.org)

Respectfully yours

*Johannes W. F. Seiger*
